**At D&H United, we take pride in our dedicated team of fully licensed electricians strategically stationed across our geographical footprint. Specializing in electrical services tailored for fueling systems and convenience stores, our expert electricians offer a comprehensive range of solutions. From fueling system maintenance to EMV installations and upgrades, POS system setups, and efficient lighting solutions, we ensure seamless operations for our clients.**

A well-lit fuel island and store enhance customer appeal and significantly bolster security, thereby increasing fuel and store traffic. Opting for LED lighting also offers the added advantage of reducing energy consumption. Our team of experts is dedicated to collaborating with you to pinpoint the ideal lighting solution tailored to your specific requirements.

**CREE:** Cree is a leading innovator of lighting-class LEDs, LED lighting, and semiconductor solutions. With high-quality, specification-grade luminaires, Cree caters to both interior and exterior lighting needs. Their commitment to excellence ensures an impeccable appearance around the clock, blending exceptional daytime aesthetics with optimal nighttime performance. Cree is poised to deliver unparalleled value to the specification market by offering top-notch lighting solutions at competitive prices.

**LSI Industries:** LSI Industries has been revolutionizing the lighting landscape for over three decades by pushing the boundaries of LED technology, delivering exceptional energy efficiency, performance, longevity, and aesthetics. Recognizing the pivotal role of solid-state lighting in reducing energy consumption and environmental impact, LSI is fully committed to this endeavor. Leveraging their expertise and market understanding, LSI has developed a range of innovative, energy-efficient LED luminaires tailored to meet the diverse needs of our customers.
